

Vehicle Rentals

The State of California has a negotiated rental car agreement. The primary car rental vendor is Enterprise Rent-A-Car for all government travel. In the event the primary vendor is unable to provide service, the secondary vendor should be used. The secondary vendor, Vanguard Car Rental USA, is the parent company of Alamo and National Car Rental. Departments are required to ensure the secondary vendor is only used when the primary vendor is unable to provide service.

Insurance Information

When renting a truck locally, the Enterprise Rental Agency should be used in order to have appropriate insurance coverage and to obtain the state contracted rate. No other rental agencies offer truck rentals under the state contract. If unable to use Enterprise to rent a truck, the additional insurance the rental agency offers must be purchased and reimbursed on your travel claim. The following [insurance grid](#) provides important information regarding automobile insurance coverage for a variety of different travel scenarios.
